DETAILED ACTION

1. This action is in response to amendment filed 30 December 2006. Claims 1-6, 10-13, 18, 20 and 21 have been amended. Claims 1-22 are pending.
2. This application is in condition for allowance except for the presence of claims 23-164 directed to inventions non-elected without traverse. Accordingly, claims 23-164 have been cancelled.

EXAMINER'S AMENDMENT

Authorization for this examiner's amendment was given in a telephone interview with Valerie Davis (Reg. No. 50,203) on 03 May, 2007.

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Claim 20. The method of claim 19, wherein the step of acknowledging ~~comprising~~ comprises decrypting the first encryption key, and when the first encryption key is decrypted properly, generating an acknowledgment to be forwarded via an air traffic router to the first infrastructure system device.

Claims 23. – 164. (cancelled).

Reasons for Allowance

The following is an examiner's statement of reasons for allowance: The Examiner notes that a thorough search of the prior art does not recover the method

explicitly stated in the claims. The Examiner points to Chan (US Patent 6128389), wherein the infrastructure devices are disclosed. Nothing in the prior art specifically discloses such structure for mobile communications distributing and managing keys as discussed in claim 1; specifically wherein the second infrastructure device stores a first key and generates a second key, by combining the first key with a third key, for communicating over an air interface. The immediate application is unique over Nevoux (US Patent 5661806), in that Nevoux discloses two of the network devices being a user handset, and a SIM card for the handset. The amendment for infrastructure device overcomes the embodiment of Nevoux.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
